A Message to Our Members

It is with great pleasure that we provide you, the members of the National Association of Secondary School Principals, with this annual report for the year ended June 30, 2010. In this report, you will see that your organization has taken the necessary steps, not only to survive the Great Recession but also to be positioned to succeed in the recovery.

Whenever you review your performance, it is important to look at your environment. We believe a quick scan of the issues facing our members has a significant bearing on how NASSP faces its future. Principals, assistant principals and other school leaders are facing enormous pressure as state, district, and local budgets are squeezed. In fact, the 2010 Phi Delta Kappa/Gallop Poll states “Americans said school funding tops the list of the biggest problems facing the schools in their community.” This pressure affects your association as members, reacting to budget pressures, are forced to reduce their participation or cancel plans to attend professional development programs. With the pressure to perform, to avoid the stigma of a “failing school,” members tell us they feel more isolated in their role then ever before. NASSP is taking the lead in addressing these issues through federal advocacy, dissemination of best practices, and developing virtual communities in which its members can connect.

In the pages that follow, you will discover how your association’s actions to address these issues translated into financial results. These audited statements present the results of our activities for the year. As is our practice, the NASSP Board of Directors oversaw the audit process and received the audit report directly from our audit firm, Larson Allen LLP. This year’s audit report again presents an unqualified, or clean, opinion. It is our desire that NASSP have an open and responsive governance structure. The financial transparency demonstrated throughout this report is one component of that open and responsive governance.

In 2010, the challenges presented by the recession fully impacted NASSP. With careful resource management, coupled with the austerity moves implemented in 2009, we successfully addressed those challenges. Our operations once again returned a reasonable operating profit. Our long-term reserves rebounded from the prior year and returned strong results, further lifting net assets. In addition, our defined benefit plan, which has long been a financial drag on results, saw gains due to the prudent investment choices made over the past several years.

As your representatives, we want to thank you for your continued support of NASSP and for your dedication and commitment to educating the youth of this great nation.

Sincerely,

Jana Frieler

INDEPENDENT AUDITORS’ REPORT

Board of Directors
National Association of Secondary School Principals
Reston, Virginia

We have audited the accompanying statement of financial position of National Association of Secondary School Principals as of June 30, 2010, and the related statements of activities and cash flows for the year then ended. These financial statements are the responsibility of the Association’s management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of National Association of Secondary School Principals as of June 30, 2010, and the changes in its net assets and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

NOTE 1
SIGNIFICANT ACCOUNTING POLICIES

Organization
The National Association of Secondary School Principals (the Association) is an organization committed to improving secondary education. In pursuing this commitment, the Association provides information and leadership, encourages research and service, promotes high professional standards, and focuses attention on national educational problems, and works with other professional organizations interested in the solutions to problems of education at the national level for the welfare of secondary schools and the youths they serve.

Tax Exempt Status
The Association is an exempt organization under Section 501(c)(3) of the Internal Revenue Code. In addition, the Internal Revenue Service has determined that the Association is not a private foundation. However, the Association is required to report unrelated business income to the Internal Revenue Service and the Commonwealth of Virginia, as well as pay certain other taxes to local jurisdictions. There is no unrelated business income tax liability for the year ended June 30, 2010.

The Association has adopted the guidance in the income tax standard regarding the recognition and measurement of uncertain tax positions. The adoption of this standard had no impact on the Association’s financial statements. The Association files as a tax-exempt organization. Should that status be challenged in the future, the Association’s 2007, 2008 and 2009 tax years are open for examination by the IRS.

Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities as of the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The financial statements include amounts that are based on management’s best estimates and judgments. Actual results could differ from those estimates.

Financial Instruments
Financial instruments which potentially subject the Association to concentration of credit risk consist principally of demand deposits, short-term investments, accounts receivable, and Board-designated investments. The Association places its short-term investments with creditworthy financial institutions. Credit risk with respect to trade and other receivables is limited because the Association deals with a large number of customers in a wide geographic area.

Cash and Cash Equivalents
For the purpose of reporting cash flow, the Association considers demand deposits, certificates of deposit, and savings deposits with an original maturity of three months or less to be cash equivalents.

Short-Term Investments
Short-term investments consist of an interest-bearing money market fund, not subject to value fluctuation.

Fair Values

Fair Value Measurements—The Association accounts for a significant portion of its financial instruments at fair value or considers fair value in their measurement. The Association accounts for certain financial assets and liabilities at fair value under various accounting literature. The Association also accounts for certain assets at fair value under applicable industry guidance.

Fair Value Hierarchy—The Association has categorized its financial instruments, based on the priority of the inputs to the valuation technique, into a three-level fair value hierarchy. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). If the inputs used to measure the financial instruments fall within different levels of the hierarchy, the categorization is based on the lowest level input that is significant to the fair value measurement of the instrument.
NOTE 1
SIGNIFICANT ACCOUNTING POLICIES (Continued)

Financial assets and liabilities recorded on the statement of financial position are categorized based on the inputs to the valuation techniques as follows:

Level 1—Financial assets and liabilities whose values are based on unadjusted quoted prices for identical assets or liabilities in an active market that the Association has the ability to access. Securities valued using Level 1 inputs include those traded on an active exchange, such as the New York Stock Exchange.

Level 2—Financial assets and liabilities whose values are based on quoted prices in markets that are not active or model inputs that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

• Quoted prices for similar assets or liabilities in active markets;
• Quoted prices for identical or similar assets or liabilities in non-active markets;
• Pricing models whose inputs are observable for substantially the full term of the asset or liability; and
• Pricing models whose inputs are derived principally from or corroborated by observable market data through correlation or other means for substantially the full term of the asset or liability.

Level 3—Financial assets and liabilities whose values are based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. These inputs reflect management's own assumptions about the assumptions a market participant would use in pricing the asset or liability.

Inventory
Inventory, consisting primarily of publications and insignia items, is stated at the lower of cost or market using the average cost method of valuation.

Accounts Receivable
Accounts receivable represent amounts due for general trade receivables, grant and contracts from private sources and membership dues in transit. The contracts and grants are earned and reported as revenues when the Association has incurred expenditures in compliance with grantor restrictions. Accounts past due are individually analyzed for collectibility. The Association provides for bad debts using the allowance method, which is based on management judgment considering historical information. When all collection efforts have been exhausted, the account is written off against the allowance for bad debts.

Property and Equipment
Property and equipment are stated at cost and are depreciated over their estimated useful lives ranging between three and fifty years. The straight-line method of depreciation is followed for all assets. The Association capitalizes all purchases above $1,500. Expenditures for repairs and maintenance are charged to expense as incurred.

Board-Designated Investments
Board-designated investments are carried at fair value and consist of cash, mutual funds and equities.

Net Assets
Net assets and revenues, expenses, gains, and losses are classified based on the existence or absence of donor-imposed restrictions. Accordingly, net assets of the Association and changes therein are classified and reported as follows:

Unrestricted—Resources over which the Board of Directors has discretionary control. Designated amounts represent those resources which the board of directors has set aside for a particular purpose.

Temporarily Restricted—Those resources subject to donor-imposed restrictions which will be satisfied by actions of the Association or passage of time.

Permanently Restricted—Those resources for which use has been permanently restricted by the donor.

Revenue Recognition
Revenue is recognized by the Association during the period in which it is earned. Revenue received in advance and not yet earned is deferred to the applicable period.

Functional Expenses
The costs of providing various programs and other activities have been summarized on a functional basis in the statement of activities. Accordingly, certain costs have been allocated among the programs and supporting services benefited.

Association programs and initiatives included in the functional expenses reported include the following:

Student Services—The Association sponsors leadership and recognition programs for high school and middle level school students. The Association’s major student programs are the National Honor Society, National Junior Honor Society and National Association of Student Councils, which sponsors training programs, meetings, publications, scholarships and national committees.

Joint Programs—Association activities jointly serviced and/or administered with other organizations and/or with outside funding.

Professional Development—Activities aimed at aiding members in their professional growth and enrichment; including publications, research activities, conventions, field service programs, national task forces and committees.

Special Services—Activities promoting school improvement and improving student achievement. The Association sponsors conferences, publications, and training programs to promote and advance the secondary school principalship, secondary school reform, and student achievement.

Professional Status—The Association sponsors insurance programs to support members in maintaining their professional position and in defending themselves from claims arising out of their position in the secondary school principalship.
NOTE 1
SIGNIFICANT ACCOUNTING POLICIES (Continued)

Subsequent Events
In preparing these financial statements, the Association has evaluated events and transactions for potential recognition or disclosure through September 30, 2010, the date the financial statements were available to be issued.

NOTE 2
ACCOUNTS RECEIVABLE
Accounts receivable consists of the following:

- Trade, Net of Allowance for Doubtful Accounts of $52,687: $835,872
- Grant and Contract Receivables: $18,910
- Membership Dues in Transit: $261,061
- Other: $219,949
- Total: $1,335,792

NOTE 3
PROPERTY AND EQUIPMENT
Property and equipment consists of the following:

- Land and Improvements: $322,741
- Building and Improvements: $5,117,845
- Furniture and Equipment: $1,370,546
- Computer Equipment and Software: $3,782,693
- Total: $10,593,825
- Less: Accumulated Depreciation: $6,485,155
- Total: $4,108,670

NOTE 4
BOARD-DESIGNATED INVESTMENTS
Board-designated investments are those funds the Board has set aside for use during periods of economic downturn or unexpected events to pay current obligations, to maintain the financial stability of the Association, and to retire a significant portion of the mortgage due in 2013.

Board-designated investments are stated at fair value and consist of:

- Cash: $46,873
- Mutual Funds - Fixed Income: 3,112,969
- Mutual Funds - Equity: 844,856
- Equities: 1,789,854
- Total: $5,794,552

Investment income for short term and board-designated investments for the year consists of:

- Interest and Dividends: $176,662
- Realized Gains: 91,113
- Unrealized Gains on Marketable Securities: 390,433
- Total: $658,208

NOTE 5
FAIR VALUE HIERARCHY
The Association uses fair value measurements to record fair value adjustments to certain assets and liabilities and to determine fair value disclosures. For additional information on how the Association measures fair value refer to Note 1—Significant Accounting Policies.

The following table presents the Association’s fair value hierarchy for those assets measured at fair value on a recurring basis as of June 30, 2010:

NOTE 6
NOTES PAYABLE AND LINE OF CREDIT

On October 2, 2008, the Association paid off and closed loan facilities with original maturities totaling $3,000,000 and a $1,000,000 credit line. Contemporaneously with the payoff, the Association received two loan facilities totaling $3,400,000.

Future minimum lease payments as of June 30, 2010, are as follows:

</tbody>
</table>

NOTE 9
TEMPORARILY RESTRICTED NET ASSETS

Temporarily restricted net assets at June 30, 2010, consist of the unexpended portion of temporarily restricted contributions received by the Association. These contributions are restricted for the following programs:

- Assistant Principal of the Year .................................. $81,360
- Assistant Principal of the Year - Travel Fund .............. 40,481
- Principal of the Year .............................................. 24,092
- Principal of the Year Relief Fund ............................ 81,360
- Raising Student Voice and Participation .................. 3,615
- Break Through Schools ....................................... 710,489
- NHS Scholarship Fund ......................................... 25,366
- EdWeb Project ..................................................... 40,481

Total ........................................................................... $1,248,675

NOTE 10
PERMANENTLY RESTRICTED NET ASSETS

In 2010, the Association received direction from the donor to remove the restrictions and repurpose the use of the permanently restricted net assets that consisted of assets of the Forrest E. Long Memorial Fund, whose use by the Association was limited by donor-imposed restrictions that neither expired by the passage of time nor could be fulfilled or otherwise removed by actions of the Association. These funds are now temporarily restricted for use in the Association’s EdWeb Project to build on-line communities of principals and have been characterized as appropriations in the following endowment footnote.

NOTE 11
ENDOWMENT

The Association has donor-restricted endowment funds. As required by GAAP, net assets of the endowment fund are classified and reported based on the existence or absence of donor-imposed restrictions. The Board of Directors of the Association have interpreted Virginia’s Uniform Prudent Management of Institutional Funds Act (UPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, the Association classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund.
NOTE 11
ENDOWMENT (Continued)

The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure by the Association in a manner consistent with the standard of prudence prescribed by UPMIFA. The Association considered all amounts earned on the endowment fund to be appropriated for current use.

The Association's endowment investment policy is focused on preservation of capital and amounts are invested in certificates of deposit and money market funds.

The following is a summary of endowment funds subject to UPMIFA for the year ended June 30, 2010:

<table>

</tbody>
</table>
Prior to June 30, 1998, the Association maintained a defined benefit pension plan (the Plan) for eligible employees. As of June 30, 1998, the Association froze the Plan. The frozen Plan continues to provide benefits to retirees and other eligible former and current employees. The benefits were based on years of service and the employee's average compensation over the highest three consecutive years of service. Benefits earned by active employees as of June 30, 1998, have not been reduced, and will be payable in accordance with the terms of the Plan as of June 30, 1998. Active employees who were not vested in their Plan benefits continue to be credited with service, so that the benefits they have accrued under the Plan might ultimately become vested.

The Plan's investment strategy is to control risk and promote returns through a diversified investment portfolio of equities and fixed income investments while focusing on preserving plan assets to safeguard the benefits provided to participants and their beneficiaries during their retirement or at other times as specified by the Plan. The investment allocation is expected to remain stable over time, but may change at the Trustees' direction as investment objectives or circumstances change. Currently, the Trustees have determined the asset allocation to be 25% equities and 75% fixed income.

The measurement date used for Plan disclosures is as of June 30, 2010 and for the year then ended.

The changes in projected benefit obligation are as follows:

**Change in Benefit Obligation**
Projected Benefit Obligation
at Beginning of the Year $14,104,191
Service Cost 824,555
Interest Cost 986,463
Benefits Paid 942,334
Actuarial (Gain) Loss 422,334
Projected Benefit Obligation at End of Year $14,884,617

**Change in Plan Assets**
Fair Value of Plan Assets at Beginning of the Year $12,157,078
Actual Return on Plan Assets 1,909,357
Employer Contributions 600,000
Benefits Paid 986,463
Fair Value of Plan Assets at End of Year $13,679,972

**Funded Status of the Plan**
Benefit Obligation $14,884,617
Fair Value of Plan Assets 13,679,972
Excess of Benefit Obligation over Fair Value of Plan Assets $1,204,645

**Components of Net Periodic Benefit Costs**
Interest Costs 824,555
Expected Return on Plan Assets 701,900
Amortization of Prior Service Costs 651,603
Net Periodic Benefit Cost $774,258

**Unamortized Net Loss** $7,009,728

**Pension-related Changes Other Than Net Periodic Pension Costs**
Net Loss (Gain) $265,123
Amortization of Net (Loss) Gain 631,603
Amount Recognized in Other Comprehensive Loss (Income) 916,726

**Actuarial Assumptions**
Assumptions used to Determine Benefit Obligations at June 30, 2010:
Discount Rate 4.99%
Salary Increase Rate 0.00%
Assumptions used to Determine Benefit Obligations at July 1, 2009:
Discount Rate 6.12%
Expected Return on Plan Assets 6.00%
Salary Increase Rate 0.00%

Estimated future benefit payments over the next ten years, which reflect expected future services, are expected to be paid as follows:

**Year Ending June 30, Amount**
2011 $1,035,295
2012 1,073,109
2013 1,096,455
2014 1,093,656
2015 1,087,546
2016–2020 5,391,000
Total $10,777,061

**Weighted-Adverage Asset Allocations, by Category:**
Debt Securities 76.00%
Equity Securities 24.00%
Total 100.00%

The Association expects to contribute at least the minimum funding requirement to this Plan in the fiscal year ending June 30, 2011. In addition, it may contribute additional deductible amounts not yet determined.

**NOTE 15**
**POST RETIREMENT HEALTH INSURANCE BENEFITS**
The Association provides health insurance benefits for certain retired employees. Benefits provided under the plan are available to eligible retirees and other eligible former and current employees. As of March 30, 2003, the Association froze the plan, limiting the maximum reimbursement. The Association funds amounts necessary to pay annual health insurance premiums for current retirees only. In 2010, the Association funded $88,708.

The measurement date used for plan disclosures is as of June 30, 2010 and for the year then ended.
