

## Reading Activity:

1. Which concerns on your pre-reading list were addressed by the tips and suggestions offered in the article?

2. How many of the tips and suggestions are things you could implement in your school? Are there items you would need to “tweak” to make them better suit your school population?

3. Create a list of 10 Simple Suggestions modeled after the list in the article, but *tailored to your school population*, recognizing, for example, that not all parents have easy email access?
